Subject: Fw: Label Amendments

Please see the email below from Bell Labs. It affects the responses to the rodenticide mitigation I put on your desks. Please make it part of the submission by entering it as a resubmission. Regarding those mitigation labels, please enter them as a resubmission under the 676 codes. (I wonder what Julia will say about the few products that don't have a 676 for which I think they should). If you are able to complete any, please hold them until I get back.

(Dan - fyi, I don't think I told you that I'll be out of the office from 11/18 - 12/3 on vacation).

thanks,
john

"John Lublinkhof" <jlublinkhof@belllabs.com>	To John Hebert/DC/USEPA/US@EPA cc
10/28/2008 05:20 PM	Subject Label Amendments

Dear John,

Ref: Ditrac Rodenticide 12455-81 Sept 2 Amend. Request
Ditrac Rodenticide Place Pacs 12455-83 Sept 2 Amend. Request
Ditrac All-Weather Cake 12455-5 Sept 2 Amend. Request

Ditrac Super Size Blox 12455-14 Sept 2 Amend. Request
Ditrac All-Weather Blox 12455-80 Sept 2 Amendment Request

Requests for label amendments were sent in on Sept. 2, 2008 for the above listed products. On the application form, I incorrectly provided the wrong range for the size of the container. This range was listed as 16-50 lb. for all the above referenced products but should be corrected to read 4-50 lb. The submitted labels have the correct rate range.

Is there anything else I need to do to correct this or does this note serve to handle the correction?

I apologize for any inconvenience this may have caused.

Best regards,

John Lublinkhof
